

NAME .....

HABITAT: SEASHORE  
ACTIVITY: STRANDLINE SURVEY

**ALONG THE STRANDLINE**

The sea leaves many of its treasures along the high water mark. There is usually a mixture of natural and manufactured objects. However, stretches of the beach are regularly cleaned. The local council organise this and you will need to check that this has not been done recently. Don't pick up rubbish unless you are wearing gloves.

**Make a tally of what you find. Back in the classroom you can sort the lists into different groups, e.g. manufactured/ natural objects or harmless/ harmful things.**

<b>Feathers</b>
<b>Fishing line/ net</b>
<b>Egg cases</b>
<b>Plastic packaging</b>
<b>Cardboard packaging</b>
<b>Red seaweed</b>
<b>Brown seaweed</b>
<b>Drinks cans</b>
<b>Dead crabs</b>
<b>(Other)</b>

**ALWAYS WASH YOUR HANDS BEFORE EATING**
